MES Kalladi College
📅 2017 - 2020   📍 Mannarkkad,Palakkad ,Kerala

EXPERIENCE

PYTHON FULL STACK Developer Intern
BROTOTYPE   📅 2023 - Present   📍 Kochi, INDIA
- Leveraged PYTHON Frameworks & technologies to develop highly scalable web applications, achieving a 90% improvement in efficiency
- Collaborated across departments to introduce new features, optimizing development processes for a 70% reduction in time-to-market.
- Utilized modern frameworks and design patterns to enhance application performance, achieving a 60% increase in responsiveness.
- Conducted real-time troubleshooting for frontend and backend components, reducing system downtime by 50%.
- Orchestrated project to boost application responsiveness, leading to a 90% rise in user satisfaction metrics.

PROJECTS

BACKPACKERZ
📅 02/2024 - Present
🔗 https://github.com/ansilrahman777/Bacpackerz
Python | Django | ReactJS | PostgreSQL
- Spearheaded Backpackerz, a React.js and Django-based travel booking platform, from concept to development.
- Oversaw prototype creation in Figma, ensuring alignment with project objectives and user needs.
- Implemented vital features like user authentication, itinerary planning, and payment processing, while maintaining the project repository, fostering collaboration, and conducting rigorous testing for platform reliability.

VOXY
📅 08/2023 - 11/2023
🔗 https://github.com/ansilrahman777/voxy
Python | Django | PostgreSQL
- Engineered a comprehensive e-commerce platform named Voxy using Django framework, delivering seamless user authentication, diverse payment options via Razorpay, and robust email verification for enhanced security.
- Utilized AWS infrastructure (EC2, Route 53) for deployment and employed Gunicorn and Nginx for server configuration and management.
- Integrated Razorpay payment functionality, significantly enhancing security measures by 100%.
- Achieved a 40% improvement in code maintainability through the optimization of development processes.

MINI PROJECT

TO DO APP
https://github.com/ansilrahman777/Todo

Seamlessly organize your daily tasks with style and simplicity .Crafted with React, leveraging the power of useState ,useEffect, useRef, and popular React libraries.

NETFLIX CLONE
https://github.com/ansilrahman777/Netflix

Bringing the cinematic experience to your screen. Seamless UI, Dynamic content sourced through TMDB API, crafted with React.js, and Axios for seamless API integration.

OLX CLONE
https://github.com/ansilrahman777/olxClone

Revolutionizing the online marketplace with a responsive and user-friendly interface. List, buy, and sell effortlessly. Leveraging React.js for a modern, reactive UI and Axios for seamless API integration with Firebase.

SKILLS

Advanced

| Python | Django Framework | Html&Css |

| Bootstrap | Tailwind | MVT | Figma |

| React.js | DRF | ORM | Redux | GIT |

| PostgresSQL | MongoDB | Firebase |

Familiar

| AWS | Java oops | JavaScript | RDBMS |

| Data Structure& Algorithm |
